

This declaration is valid for gas generating cells manufactured by VARTA Microbattery. For other cell or battery types please refer to the applicable declaration.

In the sense of REACH Regulation (EC) No 1907/2006 the batteries/products procured to our customers are articles (not chemicals or mixtures). Gas generating cells are intended to release a substance (hydrogen gas) under normal and reasonably foreseeable conditions of use. The substance will be registered within the time limit of REACH.

Gas generating cells do not contain any substances above 0.1 % (w/w) per product that are listed on the [Candidate List](#) of substances of very high concern (SVHC), as updated on 2019-07-16.

This includes assembled battery versions of these types. Please refer to the respective Safety Data Sheets (MSDS) as the supporting documents.

These articles do not contain any substances above 0.1 % (w/w) per product that are listed in the current edition of Annex XIV of the REACH Regulation ("[authorisation list](#)").

These articles are in conformance with the current edition of Annex XVII of REACH ("[list of restrictions](#)").

The above statements include packaging materials.
