Re: **Notice of Ubicom Acquisition and U.S. Export Controls**

Dear Distributor,

This letter is to inform you that Ubicom, Inc. (“Ubicom”) entered into an Asset Purchase Agreement with Qualcomm Atheros, Inc. (“QCA”) pursuant to which QCA acquired substantially all of the assets of Ubicom. In connection with the acquisition, Qualcomm Incorporated, QCA’s parent company (collectively, “Qualcomm”) and Ubicom conducted a due diligence investigation in the export practices of Ubicom. As part of the due diligence process, Ubicom discovered that it failed to obtain authorization from the Department of Commerce’s Bureau of Industry and Security (BIS) for certain exports of Ubicom’s products to certain of its customers and suppliers.

On February 14, 2012, Ubicom filed a voluntary self-disclosure to the U.S. Department of Commerce’s Office of Export Enforcement (OEE) informing them of these potential violations. On behalf of Ubicom, Qualcomm filed Commodity Classification Requests with BIS requesting formal classifications for its multithreaded and network processors, related evaluation PCB hardware, software and technology. These requests are currently pending with BIS. In accordance with U.S. export control laws, many of these products are not eligible to be exported or transferred from distributor site, except as where Comments below state “Authorized to ship now.”

Commodity	Description	ECCN/CCATS Information	Status	Comments
Ubicom Multithreaded Processors	IP2022 Wireless Network Processor Family, IP3023 Wireless Network Processor Family, StreamEngine 5160 and 5170 Communication Processors (IP51xx)	5A002/ENC	Pending BIS Authorization	Eligible to ship or export after March 15
Ubicom Multithreaded Processor	Ubicom IP71xx Network Processor Family,	5A002/ENC	CCATS G079534 dated 4/14/2010	Authorized to ship now
Ubicom Multithreaded Processor	Ubicom IP8100 Network Processor Family Ubicom IP8160 Evaluations PCB	Approved 5A002/ENC	CCATS G082167 dated 7/14/2010	Authorized to ship now
Ubicom Multithreaded Processors Evaluation	IP2K, IP3K, IP5K, & IP7K Evaluation PCBs provided to customers as development	5A002/ENC	Pending BIS Authorization	Eligible to ship or export after March 15

Boards	vehicles for products using UbiCom's ICs.			
UbiCom Multithreaded Processors SDK in Binary	SDK in binary form used by ODMs to build a binary image that is loaded on the router products.	5D002/ENC	Pending BIS Authorization	Eligible to ship or export after March 15
UbiCom Multithreaded Processors SDK in Source Code	SDK in source code form used by ODMs to build a binary image that is loaded on the router products.	5D002/ENC/740.17(b)(2)	Pending BIS Authorization	Eligible to ship or export now

We note that these items are never eligible for export or reexport to end-users located in any of the embargoed countries, currently Cuba, Iran, North Korea, Sudan (North) and Syria or on a restricted government list.

If you have any questions regarding these regulations or procedures to follow to comply with US law, please do not hesitate to contact me at peggyg@qualcomm.com.

Sincerely,

Qualcomm Incorporated

Peggy Gates
