

## Data sheet Product WSM-3 P

Accessories for electronic components > Thermally conductive material > Silicone rubber insulating material for semiconductors  
insulating tube as meter ware, foil WS, TO 3 PF, Ø 13,5 mm

Distributed by:

### Features

|                             |                             |
|-----------------------------|-----------------------------|
| colour                      | green                       |
| foil type                   | foil WS                     |
| for transistor              | TO 3 PF                     |
| material                    | silicone foil, standard     |
| material thickness          | 0.3 mm                      |
| tolerance                   | -0 / 0.1                    |
| thermal resistance $R_{th}$ | 0.4 K/W                     |
| thermal conductivity        | 1.22 W/m·K                  |
| hardness range              | 75 Shore A                  |
| temperature range           | -60°C... +180°C             |
| insulation resistance       | 2.9 · 10 <sup>15</sup> Ω·cm |
| extensibility               | 100 %                       |
| dielectric strength         | 10 kV                       |
| class of flammability       | UL 94 V-0                   |
