You may already be aware that the global market situation for certain raw materials and primary products is extremely tight at present. Numerous manufacturers with increasing demands are only being supplied with delivery quantities below market requirements.

RAFI has also been severely affected in the meantime for various products. Particularly due to the shortage of plastic granulates, our material demands cannot be completely met by our suppliers.

We would like to inform you that the ability to deliver our products has a very high priority for us. Due to this, we are forced to switch to an alternative plastic material for some individual parts of our products in order to counteract an impending inability to deliver.

The information in this sheet only contains general descriptions and / or performance features, which may not apply precisely as described to the respective application, and which may change due to further product enhancements. The technical data, illustrations and other information about our products are the mere results of individual technical testing. These descriptions and other product features are only binding if they expressly agreed upon at the time of the conclusion of a binding contract. In all other cases, we reserve the right to make technical changes as well as changes of availability. Pictures and other graphic illustrations are approximations only. All product names may be trademarks or brand names of the RAFI Group or any other sub-supplier of RAFI. The use of such by any third parties for their own purposes may infringe the rights of the respective entity holding those rights. Subject to change and errors excepted. Details about delivery times and availability are noncommittal and have no legal force.

We are willing to accept the high internal effort of material conversion and testing and continue to deliver a consistently high quality. In addition, all designated approvals remain valid, as we use approved alternative materials. However, it is unfortunately unavoidable that slight color differences may occur in individual cases.

This is exemplified by the following image comparison, which shows a sleeve:

We hope for your understanding for this extraordinary situation and your confidence in our products and are looking forward to our further cooperation.

If you have any further questions, please do not hesitate to contact us. Please contact the person you know. You can also find all information about our components in our RAFI eCatalog: <https://components.rafi.de>

Best regards,

Product Management
